

We sure do miss our Grizzly family! Not seeing y'all every day has been unBEARable. To celebrate the end of the year as a family, we have decided to join together amongst the different departments and **assign one activity for the entire campus** that can be customized based on your subject/class. So this week, **your task is to help prepare a meal/dish for yourself and your family**. It could be a comfort food, a family favorite, something new, take-out food, or whatever's in the pantry. Your choice.

Student requirements:

1. Prepare the Grizzly Family meal and think about how the meal applies to all of your classes (see chart on the next page for the writing prompts).
2. Take a picture of the meal (we highly encourage you/your family to be in the picture).
3. Fill out google form (link below) to submit your picture and your reflective writing pieces.

In every department and every class, we will be assigning the same thing this week: to complete a Google Form with your reflections pertaining to each subject. The form should take you roughly 30 minutes to complete (when you begin, it will say that it is 82 pages but it reflects only 8 class periods as you move through it so it will skip based upon your schedule). Many students have found that reading over the questions ahead of time and planning out their answers helps the process move more efficiently. Therefore, we have listed each department and writing prompt on the next page, for your planning purposes.

Please note: You only need to complete this form one time!

The link is the same in every class, so your teachers will see your responses regardless of which class' link you follow. Click this link to complete your assignment for the week of May 18 – 22.

Reflective Writing Prompts for Your Grizzly Family Meal

Please limit all responses to one paragraph or less.

Department	Introduction	Writing Prompt
Social Studies	You've spent the year learning about different aspects of the world you live in: geography, world history, US history, psychology, sociology, Leadworthy (Teen Leadership), and personal financial literacy.	How does your meal apply to the subject matter you learned this year? Please write a sentence or two and explain the relevance to your class subject matter this year.
English	English classes have emphasized reading, writing, and thinking about our experiences and background. Those items shape who we are and the unique perspective we offer to the world.	Please write about why you chose this meal and its importance to you.
Science	Science is a part of nearly every aspect of our daily lives – especially in the preparation of the food we eat!	Please share how science was involved in the preparation of your meal.
Math	A chef has a great deal in common with a mathematician. Chefs have to change the quantities of ingredients based on the number of servings needed. They may have to work out cooking times based on weight and also have to determine the cost of purchasing the needed ingredients for the meal.	Please share how you have used Math in preparing this meal.
LOTE	Ethnic foods tend to reflect a family's cultural roots. Often times, "comfort foods" in each culture are the cheapest and most readily available ingredients.	List three ingredients of your meal in the target language and explain their cultural importance.
PE & Athletics	As an athlete, you have learned to use food as fuel for your body and the physiological demands your sport or movement requires.	Please discuss the physiological effect of your meal on your body (good or bad).
Fine Arts	Spring time is the part of our year in which being together is vital. Through the COVID pandemic and experience, we have struggled to overcome these obstacles using our creativity to accomplish the most with what we have.	Using your meal as inspiration, explain how we are better together than separate.
CTE	In Career and Technical Education we strive to develop the knowledge and skills to create a product that can be shared with the community or used to better our lives or livelihood.	Please share how preparing this meal is an example of that overall accomplishment for you as a CTE student.

Again, **you will only submit the Google form ONE TIME.**
All teachers will be able to see your response for his/her class.
